February 24, 2005 DOCKET ROOM

Pat Miller, Chairman
Tennessee Regulatory Authority
460 James Robertson Parkway
Nashville, TN 37238

Re: *Complaint of XO Tennessee, Inc. Against BellSouth and Request for Expedited Ruling and for Interim Relief*
Docket number: 04-00306

Dear Chairman Miller:

This letter concerns XO's request for interim relief which is on the TRA's February 28, 2005, agenda for consideration.

On Friday, February 18, 2005, BellSouth Telecommunications, Inc. ("BellSouth") made the attached filing with the Federal Communications Commission ("FCC"). The purpose of the filing is to list those BellSouth end offices which are affected by the FCC's recently issued unbundling rules. Specifically, the list indicates that there is one end office in Tennessee (Nashville Main, p. 23) where DS-1 lines will no longer be available as unbundled network elements and that there are two end offices in Tennessee (Nashville Main and Memphis Oakville, p. 21) where DS-3 lines will no longer be available as unbundled network elements. Regarding DS-1 and DS-3 loops, no other Tennessee end offices are affected by the new rules.

As the Authority is aware, XO has filed the above-captioned complaint against BellSouth requesting that the agency order BellSouth to convert certain special access circuits to UNE loops. Pending a final decision on the merits of XO's complaint, XO has requested that BellSouth be directed to make these requested conversions at the "switch as is" conversion rate provide in the parties' interconnection agreement for switching special access circuits to UNE loop-transport combinations ("EELs"). This conversion rate would be subject to retroactive a true-up once the TRA sets an applicable, permanent rate.

Regardless of whether BellSouth's information is reliable,¹ XO and the TRA at least now know that, according to BellSouth's own figures, competing carriers may continue leasing as UNEs at least all DS-1 loops except those subtending the Nashville Main central office and at least all DS-3 loops except those subtending the Nashville Main central office or Memphis Oakville central offices. Therefore, for purposes of XO's request for interim relief, BellSouth should be directed immediately to comply with all conversion requests except those

¹ BellSouth, for example, earlier informed the U. S Court of Appeals for the District of Columbia Circuit that there are only three BellSouth end offices in the entire BellSouth region affected by the FCC's new rules on DS-1 lines. See Letter of XO to Chairman Miller, January 6, 2005. BellSouth's letter to the FCC, however, states that there are twenty-three end offices in the region, including Nashville Main, where DS-1 loops will no longer be available as UNEs. For purposes of this request for interim relief, XO has restricted its request to those end offices where there is no dispute about the impact of the FCC's new rules. When this case is heard on the merits, however, XO intends to ask the TRA to investigate this issue further and determine definitely which end offices are affected by the new rules.

January 17, 2005
Page 2

involving the DS-1 subtending Nashville Main or DS-3 loops subtending Nashville Main or Memphis Oakville central offices.² Should BellSouth, the FCC, or the TRA later determine that BellSouth's list is inaccurate, the grant of interim and/or permanent relief should be modified accordingly.

Very truly yours,

BOULT, CUMMINGS, CONNERS & BERRY, PLC

Henry Walker/dc
By:

Henry Walker

Enclosure
cc: Guy Hicks

² XO's pending request contains only DS-1 circuits, however, BellSouth should be ordered to accept conversion requests for both DS-1 and DS-3 circuits in unaffected central offices, at the EEL conversion rate.

Re: *Unbundled Access to Network Elements*, WC Docket No. 04-313;

Review of the Section 251 Unbundling Obligations of Incumbent Local Exchange Carriers, CC Docket No. 01-338

Dear Mr. Carlisle.

Pursuant to your letter to Mr. Herschel Abbott, dated February 4, 2005, enclosed please find a list by Common Language Location Identifier ("CLLI") code of those BellSouth wire centers that satisfy the Tier 1, Tier 2, and Tier 3 criteria for dedicated transport and dark fiber as well as the CLLI code for the BellSouth wire centers that satisfy the nonimpairment thresholds for DS-1 and DS-3 loops.

In compiling this list, BellSouth applied the Commission's definition of a "business line" as set forth in Section 51.5 of the revised rules adopted in the Commission's *Triennial Review Remand Order*.¹ In particular, BellSouth counted all ISDN and other switched digital access lines in each wire center on a per 64 kbps-equivalent basis as required by the rule. In addition, in determining the number of fiber-based collocators in each particular wire center, BellSouth reviewed its records to verify the existence of an "active electrical power supply" to the particular collocation arrangement as required by Section 51.5. When the Commission requested that BellSouth submit wire center data in December 2004, the Commission did not specify any particular methodology, and thus BellSouth did not use the 64 kbps-equivalent approach or attempt to verify an active electrical power supply.

¹ *Unbundled Access to Network Elements, Review of the Section 251 Unbundling Obligations of Incumbent Local Exchange Carriers*, WC Docket No. 04-313, CC Docket No. 01-338, Order on Remand (Feb. 4, 2005) ("Triennial Review Remand Order")

Jeffrey J. Carlisle
February 18, 2005
Page -2-

BellSouth shares the Commission's desire, as indicated in your letter, "to facilitate prompt implementation of its revised rules, and to minimize disputes regarding the scope of incumbent LEC's unbundling obligations in any particular case." Although we disagree with certain aspects of the Commission's *Triennial Review Remand Order*, "certainty" regarding the scope of unbundling obligations is important to the entire industry, as your letter notes. In that regard, BellSouth will be posting the enclosed list on its interconnection website (<http://interconnection.bellsouth.com/notifications/carrier/index.html>) so that all requesting carriers will be aware of the particular wire centers in which the nonimpairment thresholds have been met and in or between which new high-capacity loops and transport will no longer be available on an unbundled basis as of March 11, 2005. With dissemination of this information, a carrier that subsequently requests new high-capacity loops and transport on an unbundled basis in or between these affected wire centers will be unable to self-certify based upon a "reasonably diligent inquiry" that its request is consistent with the Commission's unbundling requirements, as required by the *Triennial Review Remand Order*.²

To the extent any party is concerned about the methodology BellSouth has employed or the wire centers identified on the enclosed list in which the nonimpairment thresholds have been met, it should bring that concern to the Commission's attention. As the *Triennial Review Remand Order* makes clear, it is for the Commission to determine where "no section 251(c) unbundling requirement exists,"³ and thus any dispute about whether an incumbent has been relieved of its section 251(c) unbundling obligations in a particular wire center must be resolved by the Commission.

The Commission's *Triennial Review Remand Order* cannot and should not be read to suggest that the state public service commissions have any role in establishing the wire centers in which the Commission's nonimpairment thresholds are currently met.⁴ To do otherwise effectively would result in the delegation of impairment decisions with regard to high-capacity loops and transport to 50 state public service commissions in clear violation of *USTA II*.⁵ Just as it was unlawful to delegate to the state commissions the authority to determine whether the Commission's "competitive triggers" had been met for purposes of determining where switching and high-capacity loops and transport should be unbundled under the *Triennial Review Order*, it would be equally unlawful to allow state public service commissions to determine where the Commission's new nonimpairment thresholds for high-capacity loops and transport are currently

² *Triennial Review Remand Order*, ¶ 234

³ *Id.* ¶ 142

⁴ The Commission directed parties to negotiate pursuant to the section 252 process the "appropriate transition mechanisms" for those high-capacity facilities "not currently subject to the nonimpairment thresholds" established in the *Triennial Review Remand Order* that subsequently "may meet those thresholds in the future." *Id.* ¶ 142, n 399. However, the Commission did not require the parties to negotiate, let alone for 50 state public service commissions to arbitrate, the wire centers in which the nonimpairment thresholds are currently met.

⁵ *United States Telecom Ass'n v FCC*, 359 F.3d 554 (D.C. Cir. 2004) ("USTA II"), cert. denied, *NARUC v United States Telecom Ass'n*, 04-12, 04-15 & 04-18 (U.S. Oct. 12, 2004)

Jeffrey J. Carlisle

Page -3-

met under the *Triennial Review Remand Order*. The Telecommunications Act of 1996 requires a uniform methodology and application of the Commission's unbundling rules, which cannot occur if unbundling determinations are left to the state commissions.⁶

BellSouth believes that its determinations concerning the wire centers in which the Commission's nonimpairment thresholds for high-capacity loops, transport, and dark fiber are completely consistent with the Commission's revised rules. The same is true for BellSouth's approach to implementation of those rules as set forth above, which should minimize disputes and facilitate the certainty the industry requires. BellSouth will assume the Commission agrees unless the Commission advises otherwise.

Sincerely,

Bennett D. Ross

⁶ Although *USTA II* recognized certain situations when input from an outside party into an agency's decision making processes might be appropriate, none of those situations applies here. In particular, there is no need for the Commission to rely upon "factual information" or "advice and policy recommendations" from a state public service commission in determining where the Commission's nonimpairment thresholds have been satisfied. *USTA II*, 359 F 2d at 558. Indeed, the Commission's rationale for establishing such thresholds was because they were based upon data that are "objective and readily available," which obviates the need for any input from state public service commissions. *Triennial Review Remand Order* ¶ 161.
